July 2009: Summer Reading

This annual issue of *Science Class*—an online companion to *The Science Teacher (TST)*, NSTA's journal for high school teachers—provides you with our best recommendations for your summer reading, as well as tips to help you prepare for the upcoming school year. From using current research to reading books aloud with students to helping new science teacher succeed, we hope these resources will make for an ever better year ahead. So read up with this issue of *Science Class* and enjoy your summer!

Click on the cover to view *TST*'s complete [Summer 2009 Table of Contents](#) and read a free article ("A Virtual, Shoestring Vacation") from the issue. Here is a collection of online resources we've compiled that relate to **Summer Reading**:

[In the News: Summer Reading](#)

Too busy to sift through the news in search of interesting stories? Click on the link to read current news stories, collected for you by NSTA staff members, that are related to this theme.

[On the Web: Summer Reading](#)

With so much on the web, it's hard to know what's *really* useful. In this section, you'll find various online resources and opportunities related to this theme.

[From the TST Archives: Summer Reading](#)

Readers tell us again and again how timeless our journal articles are. So in this section, we've compiled theme-related articles from our archives.

[Books, Books, Books: Summer Reading](#)

Tired of your textbook? Click on this link for a list of some of the high school-level books we've found that relate to this theme.
